

## HIDE CAPTIVE PORTAL LOGIN MENU GRAPHICS

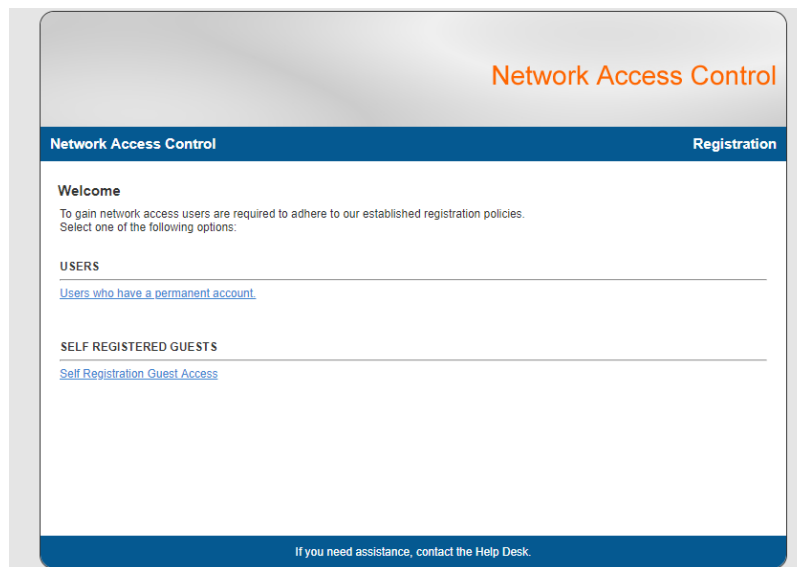

DATE: December 20<sup>th</sup>, 2018

### *What it Does*

The following procedure hides the default graphics displayed in the Login Menu:

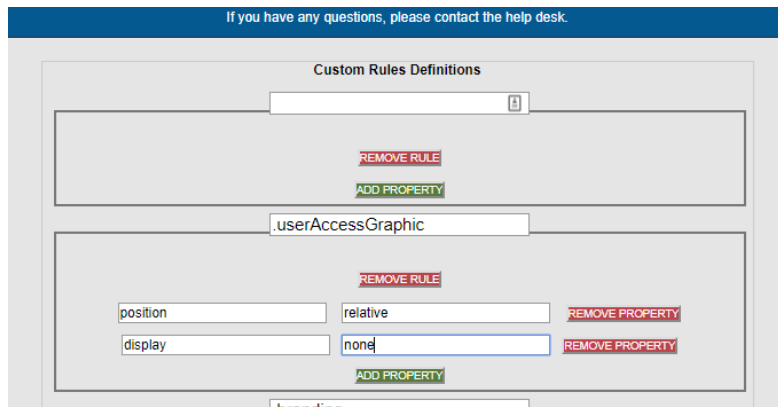

Such that the end result is...

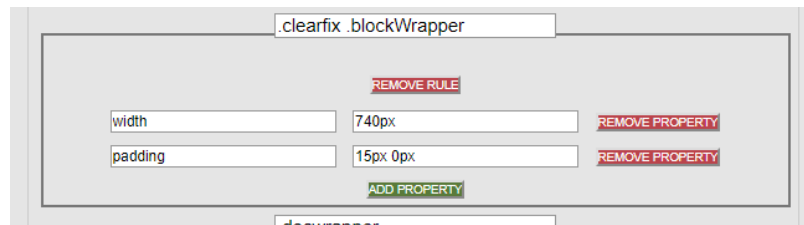

This is done by removing the link to the graphic within the Style Editor of the Portal Configuration in the Administration UI.

## Procedure

1. In the Administration UI, navigate to **System > Portal Configuration**.
2. In the left hand menu, select **Global > Styles**.
3. Scroll down to the **Custom Rules Definitions** section.
4. Locate the definition **.userAccessGraphic**
5. To remove the graphic and the link, click **ADD PROPERTY**.
6. Type **display** in the left (property) field and **none** in the right (value) field.

7. Locate the definition **.clearfix.blockWrapper**
8. To fill the line to the end of the block wrapper, add 100px to the current **width** value.

9. Click **Apply** in the lower left corner to apply changes.
